Duct Grille Spiral Double Blades

FEATURES

- Double adjustable
- Supply and return air
- Galvanised steel
- Available sizes in mm: 225x75, 325x75, 425x75, 525x75, 625x75, 825x75, 425x125, 525x125, 625x125, 25x125, 1025x125, 825x225

DESCRIPTION

The ClimaConnect spiral duct grille for air supply and exhaust is a galvanized steel duct grille where the vertical and horizontal blades are adjustable. The ClimaConnect duct grille has pre-drilled holes and has an approximately 70% open area, depending on the position of the vertical blades, also known as vanes. The grille is suitable for a wide range of applications, such as in the catering industry, retail and industrial environments. These grilles combine vertical louvers at the front with horizontal louvers at the back, which provides extra flexibility for air supply.
